

# 2014 Camry

# The 2014 Camry takes driving to a whole new level.

The 2014 Camry takes driving to a whole new level. From its spacious interior to its aerodynamic exterior, Camry's craftsmanship exceeds your expectations. Take a seat inside and you'll not only notice style and innovation, you'll notice a level of comfort that's second-to-none. Camry also delivers impressive performance and incredible fuel efficiency – so you can skip the pumps and focus on what's important – the drive.

When it comes to safety and durability, Camry doesn't fall short. It not only comes standard with Toyota's Star Safety System™, it's also backed by the fact that 80% of Toyotas sold in Canada in the last 20 years are still on the road today.\*

With an impressive list of features, the 2014 Camry makes sure you not only feel great, but look great as well – wherever you go.

SE

XLE

Hybrid XLE

#### READY VERSATILITY

To help you transport longer items, such as skis or that towering floor lamp, Camry's 60/40 split fold-down rear seat folds flat to create a handy pass-through to the voluminous trunk.

#### WORKING SPACE

The design and shape of the front seats create increased leg and knee room for rear seat passengers to stretch out and unwind.

#### MOONROOF

Camry's remarkable driving experience is made even more uplifting with an available power tilt/slide moonroof, complete with sliding sunshade.

# Comfort and convenience

comes naturally to Camry.

We put a lot of thought into Camry's interior. Streamlined pillars and well-positioned sun visors open up the cabin to create a more spacious feel. You'll also find detailed craftsmanship throughout Camry's interior including available rich wood-grain style

accents, refined leather stitching, and high quality upholstery. And to help reduce exterior noise entering the cabin, our engineers developed sophisticated sound-absorbing techniques to help create Camry's whisper-quiet ride.

#### 8-WAY POWER DRIVER'S SEAT

Adjustable in eight different ways, Camry's available power driver's seat gives you plush and fully customizable comfort.

#### HEATED FRONT SEATS

Relax in complete comfort by adjusting the available heated front seats to your desired temperature.

# Touchable technology.

Innovation and convenience are within reach.

Camry LE shown in Magnetic Grey Metallic.

## TRIP INFORMATION

Knowledge is power. The Trip Information guide on the Display Audio System will allow you to record and improve your fuel economy, while also providing your average speed and cruising rate.

## BLUETOOTH®<sup>3</sup>

Hands-free Bluetooth® wireless technology allows you to operate your compatible cellphone by pushing a button on the steering wheel.

## DISPLAY AUDIO SYSTEM WITH NAVIGATION<sup>4</sup>

The Display Audio System features a 6.1-inch touch-screen with Bluetooth® wireless music streaming, and a unique "text-to-voice" feature that converts text messages from your phone into voice messages, which play through the vehicle's speaker system.

## SMART KEY SYSTEM

The available Smart Key System with Push Button Start lets you lock, unlock or start your vehicle by simply carrying the Smart Key in your pocket or purse.

## USB PORT AND AUXILIARY AUDIO JACK

Simply plug your MP3 player into the standard audio auxiliary input jack to listen to your custom tunes.

# Camry Hybrid.

Smart, Powerful, Cleaner.

Camry Hybrid has a lot to be proud of, like its impressive fuel efficiency ratings, and its increased power. Equipped with a 2.5 L Atkinson Cycle Engine, it features the latest version of Toyota's Hybrid Synergy Drive, which offers the equivalent of 200 horsepower. The Electric Power Steering not only offers

added stability, but it also helps to improve quickness and agility. And thanks to Camry Hybrid's rear underbody design and performance-inspired rear suspension, we've created a ride with less vibration and noise that makes for an incredible driving experience.

Camry Hybrid XLE shown in Clearwater Blue Metallic.

## HYBRID INTERIOR

The modern and sophisticated cabin offers plenty of room so you can relax in complete comfort and enjoy the ride. And with Camry Hybrid's battery positioned further up in the trunk, you have 370 litres of cargo space.

## ECO DRIVE LEVEL DISPLAY

Camry's gauges provide current fuel economy information on the fly and are specially illuminated for quick and easy reading in most light conditions.

## ENERGY MONITOR

The Multi-Information Display helps keep you continually apprised of the Hybrid Synergy Drive energy flow and its efficient management.

## CLEANER. EFFICIENT. POWERFUL.9

Hybrid Synergy Drive combines driving pleasure with lower emissions. Toyota Hybrids produce nearly 70% fewer smog-forming emissions than typical new conventional vehicles<sup>9</sup> and offer economy and energy efficiency by combining gas and electric power. Toyota's Hybrid Synergy Drive automatically determines the vehicle's proper power distribution to ensure strong acceleration, a smooth response and top fuel efficiency.

# Putting the passenger first.

With innovative and carefully crafted safety features.

When it comes to building automobiles, safety is Toyota’s primary concern. At the core of Camry’s safety is a body structure that is designed to help protect occupants during front, rear and side impacts. Loaded with a host of the most vital safety features, Camry’s airbag<sup>1</sup> placement helps to provide optimum protections for the driver and all passengers.

**BACKUP CAMERA**  
When backing up, the area behind Camry that’s visible to the camera is displayed on the touch-screen of the audio system’s display.

**AVAILABLE BLIND SPOT MONITOR<sup>10</sup> WITH REAR CROSS-TRAFFIC ALERT<sup>11</sup>**  
The available Blind Spot Monitor (BSM)<sup>10</sup> with Rear Cross-Traffic Alert (RCTA)<sup>11</sup> uses radar technology to help you identify vehicles that may not be visible when changing lanes or backing out of a parking space. When a vehicle is detected, a warning indicator illuminates on the appropriate side-view mirror.

Camry XLE V6 shown in Magnetic Grey Metallic.

**(1) CRUMPLE ZONES**  
An important element of occupant protection, crumple zones are structurally engineered to absorb and dissipate energy in the event of a collision by a process known as controlled deformation.

**(2) TEN AIRBAGS<sup>1</sup>**  
Camry comes standard with a comprehensive airbag system<sup>1</sup> that includes both driver and front passenger airbags, front and rear side curtain airbags, front and rear seat-mounted side airbags, and both driver and front passenger knee airbags.

**(3) WHIPLASH-INJURY-LESSENING SEATS**  
Camry’s driver and front passenger seats are engineered to yield in a controlled fashion in certain low-speed, rear-end collisions, helping to reduce the risk of neck injuries.

**(4) LATCH SYSTEM**  
The Lower Anchors and Tethers for Children (LATCH) system which is found on each outboard rear seat, provides an added measure of safety for the smaller members of your family.

2014 Camry comes standard with the Star Safety System™. This integration of active safety features is designed to protect occupants by helping drivers avoid accidents in the first place.

- VSC VEHICLE STABILITY CONTROL**  
Helps prevent slips and loss of traction by reducing engine power and applying the brake force to the wheels that need it.<sup>5</sup>
- TRAC TRACTION CONTROL**  
Helps maintain traction on wet, icy, loose or uneven surfaces by applying brake force to the spinning wheel(s).
- ABS ANTI-LOCK BRAKE SYSTEM**  
Prevents brakes from locking up by “pulsing” brake pressure to each wheel to help you stay in control in emergency braking situations.
- EBD ELECTRONIC BRAKE-FORCE DISTRIBUTION**  
Redistributes brake force to help keep the rear wheels from locking up during sudden braking situations.
- BA BRAKE ASSIST**  
Detects sudden or “panic” braking and adds the full pressure needed to help prevent a collision.<sup>6</sup>
- SST SMART STOP TECHNOLOGY**  
Smart Stop Technology is designed to reduce engine power when the brake is firmly applied helping to bring the vehicle to a stop, even if the accelerator pedal is fully depressed.<sup>7</sup>

Toyota was the first full-line manufacturer to make all of the elements of the Star Safety System™ standard on every new vehicle. Visit [toyota.ca](http://toyota.ca) for more details.

# It's one drive

that you'll never want to end.

An impressive ride or incredible fuel efficiency? How about both. Now you don't have to sacrifice anything with the 2014 Camry. The 4-cylinder includes a 2.5-litre engine, while the 3.5-litre V6 was engineered to create the experience of having power directly at your control. The Dual Variable Valve Timing with intelligence

delivers optimum performance, fuel efficiency and lower emissions over a variety of engine speeds by constantly adjusting the intake valve timing to meet specific driving conditions. It's this impressive blend of both power and efficiency that make Camry a truly awe-inspiring ride.

## SPORT HANDLING

Camry's impressive agility comes from its sport-tuned suspension and improved responsive steering. We not only increased the steering gear ratio, but also optimized the Electric Power Steering (EPS) system for more sensitivity.

## PADDLE SHIFTERS

The track-inspired paddle shifters on the Camry SE deliver real hands-on performance. The system automatically matches revs during downshifting. To shift, simply pull the right paddle to upshift and the left to downshift.

Camry SE shown in Barcelona Red Metallic.

# Smoothness, stability, incredible handling.

Shouldn't driving always be this way?

Camry's lower, wider and more linear stance gives it an edgier and muscular look. The underbody design and shape were inspired by world class race cars. The aerodynamic stabilizing fins featured throughout the body help to reduce drag for a smoother and more improved ride. It's every one of these details that make Camry's drive smooth and stable, providing outstanding fuel efficiency on every trip you take.

### RETUNED SUSPENSION

To enhance Camry's overall ride quality, we optimized the shock absorber tuning to achieve a high-end dampening feel. We improved Camry's handling and stability by recalculating the rear suspension geometry.

### AERODYNAMIC FINS

Airflow under a vehicle is crucial to performance. A series of broad plates on Camry feature aerodynamic fins in the front and rear to help manage air turbulence beneath the vehicle, improving stability and handling.

### VORTEX GENERATORS

Camry features small specially-shaped bumps or projections called vortex generators that are positioned on the undercarriage and at key points on the body. These vortex generators help stabilize performance and reduce drag by dictating airflow behaviour around the vehicle.

New vehicle warranty summary – No deductibles – no transfer fees

**COMPREHENSIVE COVERAGE** 3 years or 60,000 km. This warranty includes 24 hour Roadside Assistance and other benefits, as well as coverage of repairs on any part of the vehicle that is defective in material or workmanship under normal use and maintenance. Different warranties apply to original tires.

**POWERTRAIN COMPONENTS** 5 years or 100,000 km. This warranty covers repairs to powertrain components that are defective in material or workmanship under normal use and maintenance.

**MAJOR EMISSION CONTROL COMPONENTS** 8 years or 130,000 km. This warranty covers repairs to specified major emission components that are defective in material or workmanship under normal use and maintenance.

**CORROSION PERFORATION** 5 years/unlimited distance. This warranty covers any sheet metal found, under normal use, to have developed a perforation from corrosion due to defects in material or workmanship.

**HYBRID-RELATED COMPONENTS\*\*** 8 years or 160,000 km. This warranty covers repairs to hybrid-related components that are defective in material or workmanship under normal use and maintenance.

*\*\*Includes: HV Battery, Battery Control Module, Hybrid Control Module and Inverter with Converter.*

(1) All Toyota vehicles shown in this brochure have Supplemental Restraint Systems (SRS). For important safety information about the Supplemental Restraint System in a particular vehicle, please see the Owner’s Manual or contact your local Toyota Dealer. (2) Fuel efficiency estimates were determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. (3) Toyota tests certain Bluetooth® capable phones for compatibility with Toyota vehicles. Note that the recommendation of Toyota is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. Some vehicles equipped with Bluetooth® technology are available with bilingual compatibility. Please see your Toyota Dealer for details. (4) The Toyota Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Rely on your common sense to decide whether or not to follow a specified route. Detailed coverage is not available for every city or roadway. Optional periodic geographic updates are available at an additional cost. The Navigational systems in some vehicles are available with bilingual capability. Please see your Navigation System Owner’s Manual and your Toyota Dealer for further details. (5) Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner’s Manual for further details. (6) Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. (7) Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions, driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner’s Manual for further details. (8) The maximum output indicates engine plus HV battery output. (9) Claims are with respect to comparisons against similarly equipped conventional gasoline powered and diesel vehicles. Based on North American sales data and Federal Tier 2 engine emission requirements. (10) Do not rely exclusively on the Blind Spot Monitor System to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are several limitations to the function, detection, range and clarity of the monitor. For a complete list of limitations and directions regarding use of the monitor system, please see your Owner’s Manual. (11) Do not rely exclusively on the Rear Cross-Traffic Alert System. There are limitations to the function, detection and range of the system. You should also look around outside your vehicle, over your shoulder and use your mirrors to confirm rearward clearance. For a complete list of limitations and directions, please see your Owner’s Manual.

**Toyota Canada Inc.** Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in production capacity, standard equipment, options or product delays may occur which would not be reflected in this brochure. Toyota Canada Inc. reserves the right to make these changes without notice or obligation. The Toyota website **toyota.ca** - or your Toyota Dealer is your best source for up-to-date information.

Committed to  
Canadians,  
today and tomorrow.

Being a leader in the automotive industry does not simply start and finish with making great vehicles. It also means being a leader in the community. Toyota Canada and its dealerships across the country fund non-profit programs that work to make a difference for Canadians through direct community involvement.

As part of our ongoing commitment to the environment and education, we established the Toyota Evergreen Learning Grounds program. This program is designed to transform Canadian school grounds into natural learning environments so that students can have a healthy place to play, learn and develop a genuine respect for nature. We also support Special Olympics Canada, which helps athletes reach their full potential through participation in events from a local to a national level.

Visit us at [toyota.ca](https://www.toyota.ca) to learn more about our programs and commitment to build a better tomorrow for Canadian communities – today.
